

Tags, Printers & Forms

DISCOUNT PRICES, HUGE SELECTION, QUALITY & CONVENIENCE.

aSa supplies the rebar tags, printers, and business forms to make your company's information look its best – around the office, at the jobsite, or in your customers' hands.

- **Take advantage of volume discounts**

aSa purchases huge quantities of tags and forms, which allows us to pass the savings along to you.

- **Experience fast, quiet tag printing**

Thermal tag printing solutions from aSa are 10 times faster than dot-matrix. Plus, the tags are more durable and the printer is quieter and more reliable.

- **Count on quality**

We vigorously test the material we supply. Additionally, our IT staff checks and configures each printer before it is shipped, so you can get up and running quickly.

- **Market your company**

Place your logo on all of your documents and tags to increase awareness among your current and future customers.

Hard-copy printouts — whether they are bar list reports, rebar bundle tags, employee payroll checks, or customer invoices — are critical to your operation. aSa provides the printing technology and paper media that allow you to create professional-quality documents efficiently and inexpensively.

Rebar Tags

Our rebar bundle tags are tested by aSa to ensure durability and readability in adverse shop and field conditions. Several material types and sizes — even custom-sizes — are available, and your company's logo can be printed on the tags. aSa keeps an inventory of the most popular tags on-hand ready to ship to you, ensuring that you'll never run out.

Printers

aSa-supplied thermal transfer printers give you the power to generate sharp-looking tags fast. SATO and Zebra printers, selected by aSa after months of in-house testing, output up to 60 tags per minute without the noise associated with slower dot-matrix style printers. You won't have to worry about setup hassles either; all printers are configured and tested in-house by aSa's IT staff before they are shipped to you. Maintenance plans offering on-site next business day service are available to protect your investment. aSa also now offers a color laser printed tag solution for companies that require orders to be individually color-coded for easy identification.

For your reports, letters, and business forms (such as sales orders, bills of lading, invoices, and checks), aSa supplies top brand name laser printers, including Samsung and Hewlett-Packard. By adding (optional) extra paper drawers to your laser printer, you can easily output several different reports — or several copies of the same report on different color paper — at the same time.

- **Never run out**

aSa keeps an inventory of the most popular tags and forms on-hand. If you're running low, we can have you replenished by morning.

- **Order from friendly, professional staff**

Whether you're buying a new printer or ordering forms, you'll be assisted by a knowledgeable, courteous specialist.

- **Protect your investment**

Minimize downtime by taking advantage of aSa thermal printer maintenance plans that offer on-site next business day service.

- **Get the products you need when you need them**

aSa offers a huge selection of supplies. Plus, we can special order nearly any product you want. A variety of shipping options are available for all of your orders.

Huge Selection of Supplies

In addition to printers and rebar tags, aSa offers a huge selection of forms & supplies at discount prices. Our professional, courteous staff makes ordering easy, and we can supply any quantity you need — even huge-volume orders. We also offer flexible shipping and quick turn-around. For your convenience, you can view product samples on the Forms & Supplies page of our website www.asarebar.com/solutions/form_supply. Products include:

- **Business Forms** — We supply a complete line of paper products for use with aSa software, including bar list, bill of lading, and invoice forms in laser and multi-part formats, as well as continuous and laser checks.
- **Company Logo Products** — Top quality paper products, such as letterhead, business cards, and envelopes, with your company's logo.
- **Office Paper Products** — Labels, computer stock paper, and more. We'll customize any product to suit your needs.
- **Plotter Paper** — We'll provide rolls or sheets ... bond, translucent, or vellum. Your choice.
- **Printer Supplies** — Complete line of printer accessories, including ribbons, ink, and toner for printers and plotters. We also recycle to save you money.
- **Data Storage Media** — CD's, backup tapes, and other media to keep your valuable data safe.

aSa supplies thermal-transfer tag printers from SATO, (center), and Zebra (right), in addition to our laser-printed color tag solution (left). aSa tags are constructed of a special multi-layered material for excellent durability in adverse shop and field conditions. Many varieties of aSa tags are available, including narrow and wide formats, as well as bright yellow "master bundle" and color-coded tags. Additionally, your logo and contact information can display on the back. aSa Production e² allows you to completely customize the content of the information that displays on your tags.
