# THE **PRECAST SHOW**

March 2-4, 2017  
Huntington Convention  
Center of Cleveland

## Outperforming your competition begins with critical questions:

- Are we as efficient as we can be?
- Are we integrated across all our business, design, and plant systems?
- Can our production processes adapt to change quickly and reliably?
- Will we discover potential problems well before casting?

Increase your profitability with aSa!
